

MED DEVICES internal database of investigators is a steadily growing resource allowing us to quickly conduct feasibility work and advice on realistic site numbers and patient recruitment rates. Our professionals do more than just identify your investigators. They carefully assess each potential investigator based on the specific requirements of your study. Customized service is a primary part of our approach. And we hold ourselves personally accountable for continuity and thoroughness throughout the process.

Services includes:-

- Investigator selection /Data base.
- Investigator meetings /Coordination
- Grant & investigator payment
- Sub investigators/Trained doctors
