

We pride ourselves with our flexible and experienced teams. Our team work as per your time schedule and your requirements.

All MED DEVICES members in project management, regulatory, Operations and business development are experienced and work together to provide quality services in a timely manner.

Our size and flat organization enables us to react quickly and have a high personal commitment to all on-going studies. For each Sponsor/ client we have a dedicated business development and project manager responsible as key account – to ensure that the highest expectations are met.

MED DEVICES Team is comprehensively trained in working according to ICH-GCP, Local laws, European and FDA Legislation. All new staff members are trained on an individual basis as soon as they come on board. Trainings on GCP and SOPs are performed on a regular basis.
