

MED DEVICES third party inspection services include a whole range of services from design review, inspection of the raw material, identification, in-process inspection to the final inspection. MED DEVICES ensures that equipment at vendor sites conform to all quality standards. Driven by highly skilled, experienced and well-qualified inspection staff with hands-on experience in third party inspection, our services are available globally.

We have a wide range of inspection plans to suit your need, and our experts have the experience that comes from extensive documentation and inspection activity.

MED DEVICES has a team of dedicated inspectors, who are available to provide expertise in various fields of inspection.
